UBIK LINEAR APPLICATION GUIDE

Ubik's eye-catching, raised-border end cap adds an elegant finishing touch.

Contour end cap option

Ubik Collection

Shining outside the box

Define, punctuate, and enrich your spaces with Ubik. Install pendant and wall fixtures as individual luminaires or in continuous runs and patterns. Balance lit and unlit areas to create contrast and drama with a chiaroscuro effect.

Up to 1600 lm/ft

Low glare with a UGR of 6*

145 lm/W (HLO)

Optical flexibility with parabolic louvers, HLO, wall wash or blanks

Flat end cap option
*3500K, 500lm, black louvers

Meet the Collection

Versatile and Varied

LINEAR

Play with lines, patterns, and corners.

Define, punctuate, enrich your spaces with Ubik. Install pendant and wall fixtures as individual luminaires or in continuous runs and patterns. Balance lit and unlit areas to create contrast and drama with a chiaroscuro effect. Enabled by our High-Efficiency Lambertian Optic (HLO), Ubik can transform dim corners into bright design features.

Seal Option Available.

Parabolic louvers

HLO

Wall wash

COMBINATION

Variety is the spice of light.

Mix and match optics to add interest and functional diversity to spaces. Parabolic louvers are available in three matte colors—black, silver, and white—HLO, and blanks. Create patterns or combinations, the possibilities are unlimited with Ubik.

Parabolic louvers - HLO - Wall wash - Blanks

CUBE (linear downlight and pendant)

Compact, flexible, and powerful.

Cubes acts as linear downlights or pendant option offered with three, six, and nine cells. They are available with parabolic louvers, HLO, and wall wash optics. Performance ranges up to 2400 lumens delivered.

3 cells

6 cells

9 cells

Ubik Linear

Performance

Ubik is one of the most commanding 2" aperture luminaires on the market, packing a powerful punch of up to 1600 lumens per foot. With five standard lumen packages, Ubik also has the flexibility to illuminate many types of spaces. And if that weren't enough, optics are interchangeable within the same linear run, allowing for even more creative options.

POE AND BIOS TECHNOLOGY

PoE and Bios technology available.

WELL BUILDING

Ubik collection meets the WELL building standard for UGR of <19 in all available lumen packages

WELL

UNITY POINTED (UP) TECHNOLOGY

For our entire Ubik collection, once you decide the output, each luminaire, regardless of shape and size, will emit identical luminous intensity values, precisely measurable down to the square inch with Unity Pointed (UP) technology.

UGR 6

Black parabolic louvers offer an industry best range of 6-8 UGR.

137 lm/W

Ubik is an industry standout with 137 lm/watt delivered with parabolic louvers.

L90 < 150 000 hrs

Offering excellent lifetime at TM21 L90 >60 000 hrs and calculated at <150 000 hrs.

Ubik Linear

Optical Flexibility

INDIRECT OPTIONS

Wide Indirect Optic

Ubik features the second generation of Wide Indirect Optic (WIO) offering impeccable indirect performance. With 8' spacing, the ideal to 2:1 ratio can be achieved with a 24" drop for best-in-class performance. Fixtures can be placed as close as 12" from the ceiling without creating undesirable hot spots.

Translucent Indirect Optic

Translucent Indirect Optic (TIO) is a simple optic that is ideal for mounting far from the ceiling. It also is very effective with Ubik wall mounted fixtures.

DIRECT OPTIONS

Parabolic Louvers

All parabolic louvers emit soft brightness at the critical viewing angle delivering low-glare environments. They are the ideal solution for task lighting. Distribution can change slightly based on the color of the louvers. All feature a low-glare conical distribution, thereby limiting ceiling brightness.

High-Efficiency Lambertian Optic (HLO)

HLO is a clean smooth acrylic lens that creates melodic lines of light. Given that the lens is flush, as opposed to recessed, the distribution allows for high angles of light on the vertical surface. HLO is the perfect optic to create a bright, open space.

Wall Wash

Wall wash is available in pendants, combinations, and cubes, and can achieve uniformity ratios of 3.5:1 on a 10' wall. Ubik wall wash offers a fully lit lens in a 2" square louver.

Low-glare subtle illumination
Ubik wall mount
Direct/Indirect option

Ubik Wall Mount

Wall mounting Ubik offers low-glare subtle illumination, ideal for corridors, waiting rooms, stairwells, and more. You can choose direct or direct/indirect and select parabolic louvers or HLO for direct illumination, or WIO and TIO for indirect illumination. Ubik wall luminaires are sophisticated and easy on the eyes.

PARABOLIC LOUVERS

Matte White

Ubik Combination

Sleek square form meets superb function in Ubik, a lighting family designed to provide a multitude of creative options. With the Ubik Combination pendant luminaire, you can combine different optics and create patterns with corners to further enhance your lighting design. These compact 2" wide pendant fixtures are offered with HLO, parabolic louvers, and wall wash optics for direct illumination. For indirect, you can select wide-spread or translucent optics.

Ubik Linear

Patterns, Corners and Combinations

With Ubik, designers can turn a single fixture into the focal point of a room or compose patterns within which optics can be combined to enrich visual interest even further.

Lit corners

Light corners seamlessly using HLO, which can be combined with wall wash and parabolic louver optics, as well as blanks.

Pendant

Ubik pendants can be used with a leveled corner arrangement.

Recessed

Ubik recessed luminaires offer leveled, inner, and outer corner configuration options.

Wall

Ubik wall fixtures can install with leveled inside corner and leveled outside corners.

Unlit corners

Corners can be unlit when you desire a smooth continuation of the lighting design. Unlit corners can match up to HLO, parabolic louvers, wall wash, or an additional blank unlit section.

Ubik Cube

Linear downlight or pendant

Ubik Cube delivers exceptional performance and versatility. Available in both linear downlight and pendant versions, the compact fixture is offered with HLO, parabolic louver, or wall wash optics. For the parabolic louvers, three matte (MPL) finishes are available in black, silver, and white. Similarly, our wall wash optics are available in black, silver, and white. For pendants, three standard housing colors are available (white, black and aluminium).

Brighten and broaden a space
by illuminating perimeter walls.

Ubik Perimeter

Ubik Perimeter offers subtle, low-glare illumination in leveled, shallow, and deep recessed arrangements with parabolic louvers or HLO (High-Efficiency Lambertian Optic). Ubik Perimeter creates uniform illumination on walls, the effects of which can open up an entire space. Use it in offices, showrooms, corridors, hospitality locations, and more.

Ubik Perimeter

Performance

Ubik Perimeter with its small aperture (2.5") can yield big and distinct results. Level, shallow, and deep-recessed housing options provide for dramatic, softer, or subtle looks respectively. Use parabolic louvers to add a subtle scalloping architectural effect emphasizing wall texture, or benefit from our HLO (High-Efficiency Lambertian Optic) and its smooth perimeter expression.

Ubik Perimeter

Construction

Ubik Perimeter is designed to offer lines of light that are seamless even at section transitions and corner junctions. The fixture can be mounted in a variety of ceiling systems (gypsum, t-bar, Armstrong TechZone, etc.), and for each option, the driver is positioned to be accessed from below the ceiling.

MOUNTING POSITIONS

Combine Ubik Seal Perimeter and Ubik Seal to create even illumination in corridors or as a wayfinding solution.

Ubik Seal Perimeter

Ubik Seal Perimeter offers subtle, low-glare illumination in leveled, shallow, and deep recessed arrangements with parabolic louvers. A gasketed clear polycarbonate lens is mounted on top of the louvers for extra protection. Ubik Seal Perimeter can brighten and broaden a space by illuminating perimeter walls. Use it in corridors, nurses' stations, offices, hospitality locations, and more.

Ubik Linears Application Guide

General lighting

Ubik is offered in five standard lumen packages to allow for the best interior lighting environments to be created. Whether you choose direct or direct/indirect, Ubik is a comfortable luminaire. If you want ultra-low glare, Ubik black parabolic louvers offer an industry best UGR (between 6 and 8 depending on the output selected). If you want more vertical brightness, then HLO is the solution. You can mix and match in the same linear run with louvers and HLO and also use the Ubik cube downlight to set off the space.
